Formation for Catholic School Educators

Last year's World Congress on Catholic Education gave priority to Catholic Identity and formation of educators to serve in Catholic schools.

Aquinas College's **WISE** program addresses both of these concerns within a community of Catholic Educators!

WISE is an educator formation initiative sponsored by the Aquinas College Center for Catholic Education. Participation in WISE provides an opportunity for Catholic school principals, vice principals and teachers to focus on and further develop their understanding of the unique nature and mission of the Catholic school. What educators learn and experience through WISE helps them to assess the depth and expressions of Catholic Identity in their own school communities and to understand how their mission as educators impacts the total school community.
